Mariposa Support for NOPA Position with Emphasis on Tunneling (March 2018)

Dear Southgate and PA neighbors,

As you probably know, Palo Alto is working to decide the **Caltrain grade separation design for the Churchill crossing** (and all PA crossings) by December 2018. A group of Churchill residents (NOPA group - for North Palo Alto) is circulating a position statement for signatures that supports a first and second preference and opposes other options (see attached).

We support the NOPA position with additional emphasis on Preference 1 (tunneling) because it reflects our interests and concerns for our neighborhood and the city.

Please sign on with us if you agree with this position, as the city has asked for hundreds of signatures from the community to show that this position has enough support to influence the eventual decision for Churchill. If you have any concerns, questions, or if you do not support it, we would appreciate an opportunity to discuss it with you. Thank you!

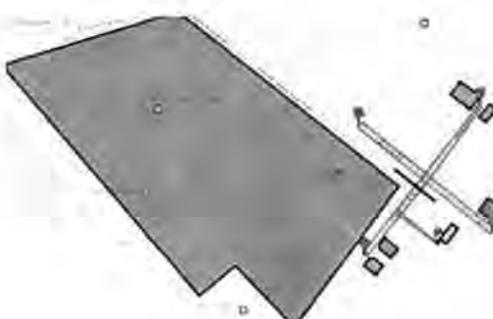

Rachel Croft, 1547 Mariposa, croftr@gmail.com
Inyoung Cho, 1511 Mariposa, inyoungcho0@gmail.com
Chandru Venkataraman, 1539 Mariposa

The NOPA positioning and our reasons for support:

- 1) **Preference 1: Tunnel Caltrain, deep bore.** While NOPA states a preference for tunneling, we emphasize that this is the only option we wholly support. Benefits include: safety for pedestrians and cars, reduced environmental impact of the train (visible and audible), improved cross city circulation, and ability to construct below while leaving surface transportation functional. We feel this is the true 21st century option and we believe the city should be working with other cities along the corridor to plan for this.
- 2) **Preference 2: In the absence of a decision to move forward with tunneling (or if tunneling is delayed), the only other option we support is to close Churchill, build a pedestrian undercrossing at Churchill, and widen Embarcadero to accommodate the loss of Churchill.** Benefits of this option include improved safety and prevention of the destruction of the Churchill neighborhood that would occur with lowering Churchill or raising the track over Churchill (as described in 3 and 4).
- 3) **Oppose: We oppose lowering Churchill under the train.** While an underpass might sound OK, once you see the details of how deep the road would go and how this would impact our community, we cannot support this. Under this scenario, most homes on Churchill between Castilleja and Emerson, most homes for a full block on Alma each way, and possibly homes on Mariposa, would be taken to enable roads to be lowered, with concrete infrastructure taking their place (see diagram below).
- 4) **We oppose raising the rail,** which would result in higher visibility of the train, loss of privacy for our homes along the tracks, increased noise, and safety issues with potential derailment. With an expected 150-200 trains a day in the future, we strongly oppose this ultra-visible option for the tracks.

Yellow represents whole properties taken by eminent domain if Churchill is lowered under train

Purple represents partial properties taken by eminent domain if Churchill is lowered under train

SIGNATURE PAGE FOR RAIL GRADE SEPARATION PROJECT

We support the positions advocated in *NOPA Community Letter to Council on Grade Separation v4.4 – 2/12/2018* and *Mariposa Support for NOPA Position with Emphasis on Tunneling (March 2018)*.

Enclosures:

1: NOPA Community Letter to City Council on Grade Separation

2: Mariposa Group Support for NOPA Position with Emphasis on Tunneling (Feb 26, 2018)
